By Robert J. Bender.

(United Press Staff Correspondent.)
Washington, April 15.—Final touches were being put on the new American note to Germany today. Secretary Lansing is hard at work on affidavits from Americans who survived the Sussex disaster. These documents were forwarded to the state department by government representatives in Paris and London. They will be used as "exhibits?" in connection with the note. If Lansing finishes his work on them today he will confer with President Wilson before night. The executive will meet members of the house and senate foreign committees after he has gone over the note for the last time with Lausing.

Lansing, it is understood, has agreed to Senator Stone's suggestion to have republicans attend these conferences. Final plans for the meetings are not decided, however.

It was indicated that the note would August Huckestein, the outgoing di-

ecided, however.

It was indicated that the note would take over the selling end of the busi-

GENERAL FUNSTON SENDS LONG CODE MESSAGE

Long Milnight Conference Between Secretary of War and Wilson

By Carl D. Groat. (United Press Staff Correspondent.)
Washington, April 15.—Secretary
Lansing today sent Consul Rodgers in
Mexico City detailed instructions with
regard to General Carranza's request
for withdrawal of American trans for withdrawal of American troops.

While he refused to announce the character of these directions, it was learned authoritatively that Lansing informed Rodgers of the administration's willingness to discuss the proposition

with Ambassador Arredondo.
It was understood that Rodgers was not instructed to treat with Carranza, but merely to inform him of Lansing's decision to receive Arredondo's over

Second Fight at Parral.

Washington, April 15,-A second of Parral was reported today in con-salar dispatches to El Paso, forwarded

here. No details were given.
In General Funston's long code message which was the subject of a midnight conference at the White House between the president and Secretary Baker it is believed that radical change as in the Villa huma ware recommended. It was indicated that the note would be on its way to Berlin by Monday. Affidavits from American survivors of the disaster, which arrived by mall abound the liner St. Paul, were regarded as convicting Germany of an unjustified attack. A conference between Semantor Stone and Chairman Flood of the house foreign committee was scheduled, at which the ground on which the present netion is being taken is to be examined and possible eventuatives divided that proposition of laying the whole matter before congress will also be considered.

ENGINEER SUBMITS PLANS FOR BRIDGE

Location Center Street, Bridge Steel and Estimated Cost \$198,500

State Engineer Lewis today submitted plans to the Board of Viewers for the inter-county bridge across the Willam-ette river at this city. The petition of the joint county courts asked for plans for a structure at the present Center street site and no other site was con idered in the present plans.

The bridge as designed consists of our 161 foot camet back spans with 138 foot vertical lift span and a reinforced onerete viaduct approach on the Police ounty end 850 feet in length. The ondway is 26 feet in width with six-oot walks on either side. The total cost of the structure is estimated at \$198,500; \$142,100 for the steel structure including foundations, and the reinforced concrete vinduct approach at \$55,400. This provides for a wooden

Reports That Americans Had **Taken Possession of Town** Are Denied

Paris, April 15.—Heavy artillery fighting occurred on the west bank of the Meuse during the night, but the full in infantry operations continued, according to official announcements to day.

The Germans kept up an incessant canonade between Malancourt wood and Hill 304. French guns were said to be doing effective work, particularly west of the Corbeaux woods and the Forges brook crossings.

East of the Meuse and on the Woever plain there were intermittent bombardments. The French repuised a reconnoisance north of Roye and defeated other patrols south of the St. Marie mines, in the Vosges.

French Attacks Repulsed

Paris, April 15.—Heavy artillery surface and if a concrete base six Inches thick is laid under the Linch asphaltic wearing surface and if a concrete base six Inches thick is laid under the Linch asphaltic to the total cost, making \$203,000.

In submitting the plans Mr. Lewis says:

"This type of bridge was selected for the reason that borings for foundations of piers showed a blue mud and sand formation jentirely unsuited for concrete arches) for the necessary span, but which was of sufficient bearing power to support a steel structure on concrete piers carried, by wood pile foundations.

Our investigations have led us to believe that this structure can be completed by December 1, 1918 16 the control of the Alvado \$500, our investigations have led us to believe that this structure can be completed by December 1, 1918 16 the control of the Alvado \$500, our investigations have led us to believe that this structure can be completed by December 1, 1918 16 the control of the Alvado \$500, our investigations have led us to believe that this structure can be completed by December 1, 1918 16 the control of the figure at Chihunhua City informed the state department today that newspapers there printed an unimpassioned account of the fight at Parral, saying as American property as here printed an unimpassioned account of the fight at Parral, saying as American transfer for the necessary span, but which was of suf
